RTS

Login & Account Access

Step-by-Step Visual Guide

Login · Forgot Password · Reset Password

Version 1.0 · Confidential — Internal Use Only

How to Log In

Sign in with your company email and password

1 **Open the RTS application in your browser**

You will land on the Login page with the RTS logo and sign-in form.

2 **Enter your Email address**

Type your company email address (e.g. **john@rts.com**). Tap the Email field and type carefully.

3 **Enter your Password**

Type your assigned password. Passwords are **case-sensitive**. Do not share your password.

4 **Click the "Login" button**

The system verifies your credentials. If correct, you are redirected to your dashboard.

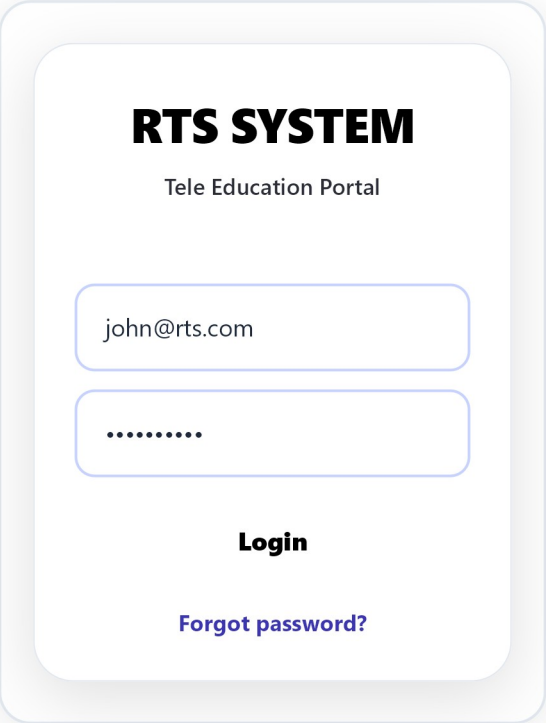
! **Wrong credentials?**

A red error banner appears: "*Login failed. Check your credentials.*" Re-enter your email and password carefully.

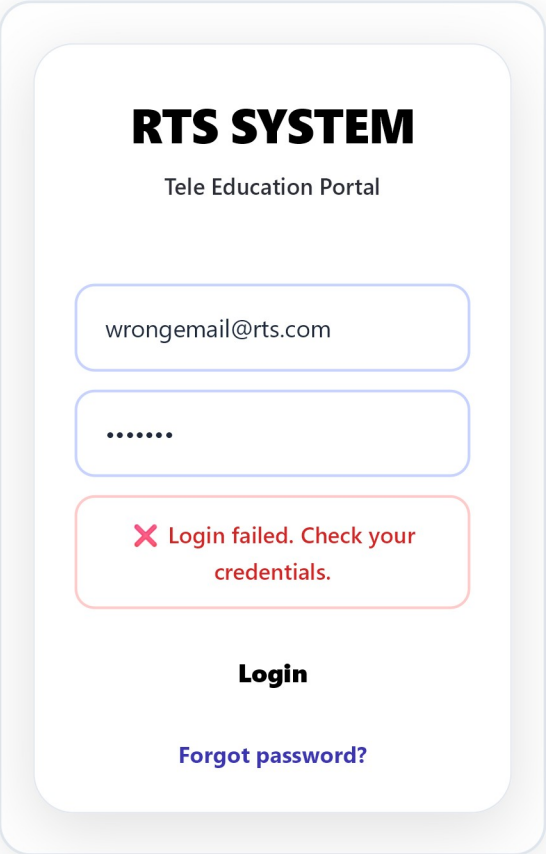
💡 **Default password format**
Requestor / RM / HOD → **FirstName@123**
DeptHOD → **DeptName@123** (e.g. *Software@123*)
Admin → **Admin@123**

⚠️ **Forgot your password?** Click the "*Forgot password?*" link below the Login button. See Page 3 for full instructions.

LOGIN SCREEN — WHAT YOU SEE



LOGIN FAILED — ERROR STATE



Select Your Role

For users assigned to more than one role or department

If your account has **multiple roles** (e.g. Requestor in Software + RM in Animation), the login screen automatically switches to a **Role Selection screen** after you enter your credentials.

1. **Log in normally with your email and password**
   After clicking "Login", the form is replaced by the role selection screen.

2. **Review the available roles**
   Each card shows a **Role** (e.g. Requestor, RM) and its **Department**. You may have 2, 3, or more options.

3. **Click the role you want to use today**
   The dashboard loads for that role immediately. Your permissions and view will match the selected role.

4. **Want to switch roles later?**
   Click your **profile area** in the top-right corner and choose "*Switch Role*" from the menu.

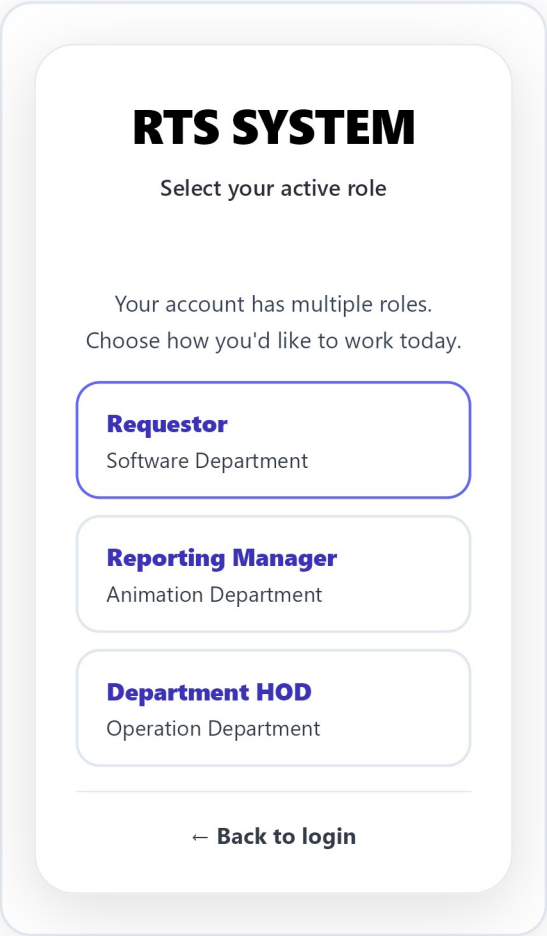
✅ **Single-role users** skip this screen entirely — you land directly on the dashboard after entering your password.

Login flow summary

Enter credentials → **1 role?** Skip selection → **Dashboard**

Enter credentials → **Multiple roles?** Select screen → **Pick a role** → **Dashboard**

ROLE SELECTION SCREEN



🔄 You can switch roles any time during your session without logging out again — just use the **Switch Role** option in the profile menu.

Forgot Password

Request a password reset link sent to your email

1 **Go to the Login page**

Open the RTS app in your browser. You will see the login form.

2 **Click "Forgot password?" link**

It is located below the Login button, in the centre of the form.

3 **Enter your registered email address**

Type the email address linked to your RTS account and click **Send Reset Link**.

4 **Check the confirmation screen**

A green success screen appears. If the email is registered, a reset link is sent to your inbox.

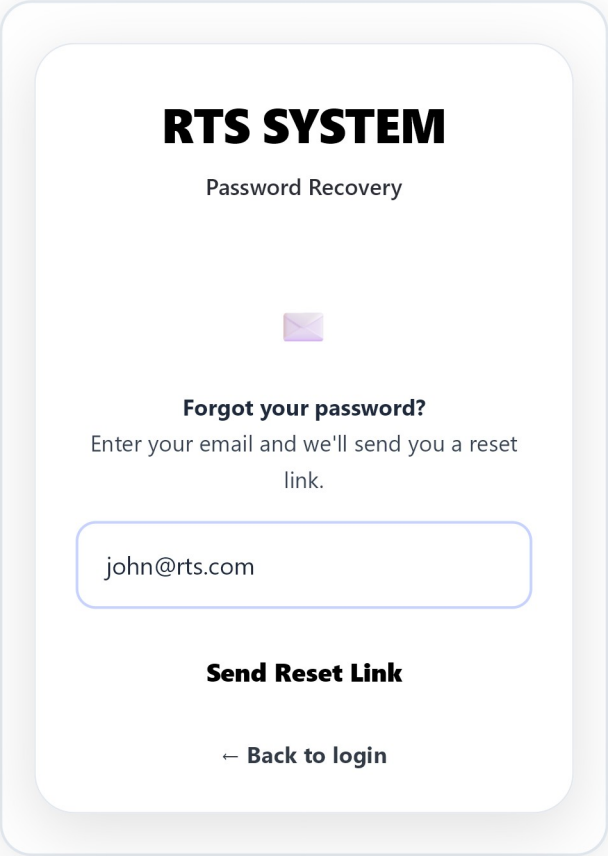
5 **Check your email inbox**

Open the email and click the reset link. It expires in **1 hour**. Check your spam folder if you don't see it.

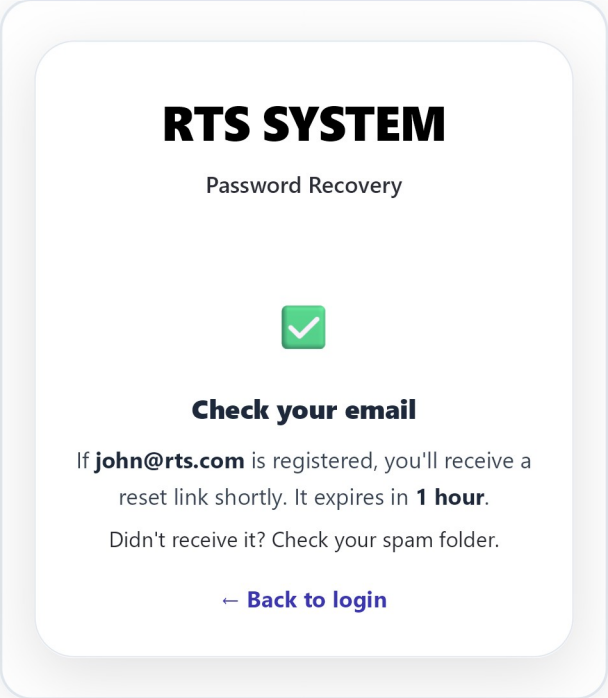
⏱ The reset link expires in **1 hour**. If it expires, repeat the process from step 2 to get a fresh link.

The confirmation screen appears even if the email is not in the system — this is for security. If you don't receive an email, contact your Admin to verify your registered email address.

STEP 3 — ENTER YOUR EMAIL



STEP 4 — SUCCESS CONFIRMATION



Reset Your Password

Set a new password using the link sent to your email

1 **Open the reset email**

Find the email from RTS in your inbox (or spam folder). The sender will be the RTS system email.

2 **Click the reset link in the email**

This opens the **Reset Password page** in your browser automatically.

3 **Enter your new password**

Must be **at least 8 characters**. Use the 👁 eye icon to show or hide the password as you type.

4 **Confirm your new password**

Type the exact same password again in the *Confirm new password* field.

5 **Click "Reset Password"**

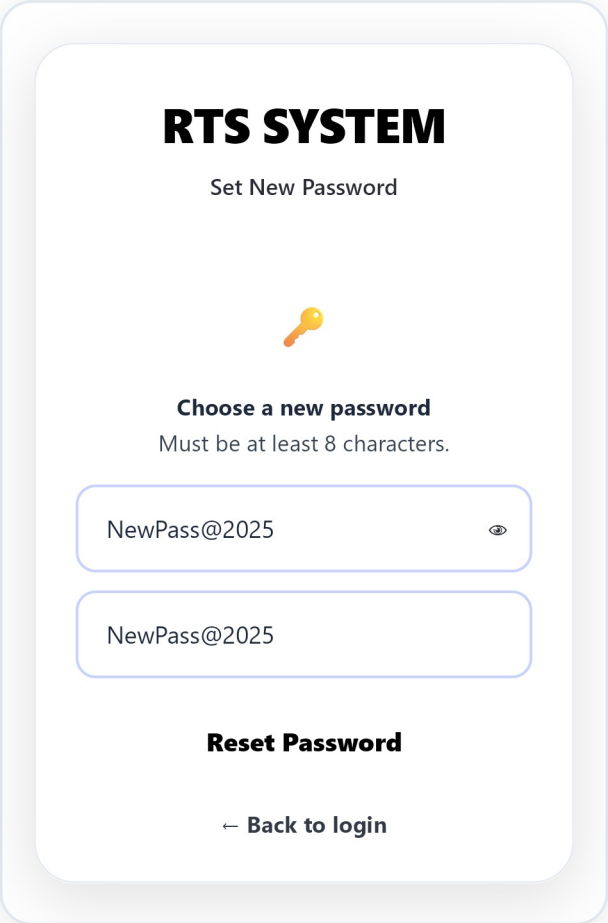
If both fields match and the link is still valid, a green success screen appears and you are redirected to Login in 3 seconds.

⚠️ **Common errors**

- "*Passwords do not match*" — re-type both fields carefully.
- "*Password must be at least 8 characters*" — choose a longer password.
- "*The link may have expired*" — go back and request a new reset link.

🔒 After resetting, log in with your **new password**. Your old password will no longer work.

STEP 3–4 — ENTER NEW PASSWORD



STEP 5 — PASSWORD RESET SUCCESS

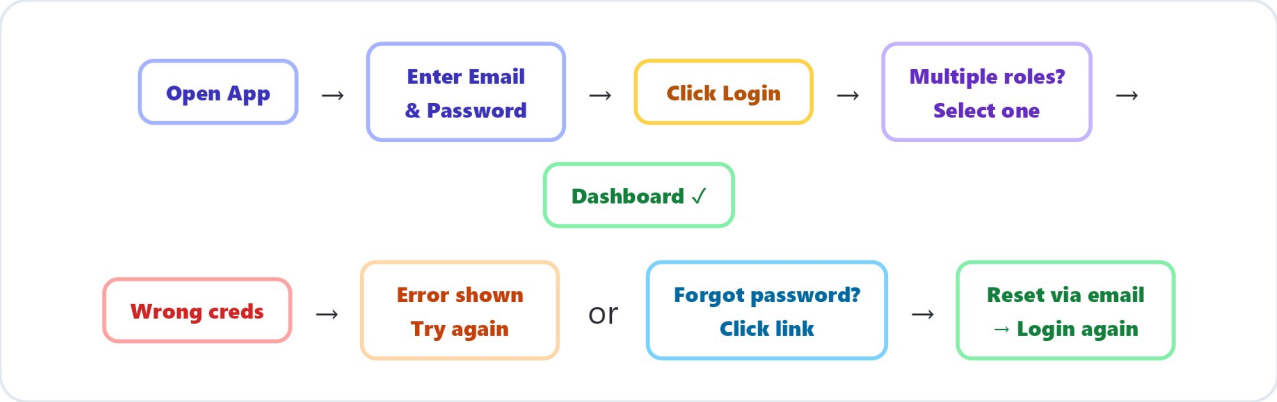
Quick Reference

All login-related flows at a glance

Complete Login Flow



Screen Summary

Screen	When it appears	What to do	What happens next
Login	Every time you open the app	Enter email + password → click Login	Dashboard loads (or role selection)
Role Selection	Only for multi-role accounts	Click the role card you want to use	Dashboard loads for that role
Forgot Password	After clicking "Forgot password?"	Enter email → click Send Reset Link	Email sent with reset link (1 hr)
Reset Password	After clicking email link	Enter new password twice → Reset	Password updated, redirected to Login

Default Password Rules

Role	Default Password Format	Example
Requestor / RM / HOD	FirstName@123	John@123
DeptHOD	DeptName@123	Software@123
Management	Management@123	Management@123
Admin	Admin@123	Admin@123

⚠️ **Change your password after first login.** Default passwords are assigned by Admin and are not secure for long-term use. Use "Forgot Password" flow to set a new one anytime.
